# Statistics, Books a la Carte Edition Plus MyStatLab with Pearson eText -- Access Card Package (4th Edition)

Alan Agresti, Christine A. Franklin, Bernhard Klingenberg

## Statistics, Books a la Carte Edition Plus MyStatLab with Pearson eText -- Access Card Package (4th Edition) Alan Agresti, Christine A. Franklin, Bernhard Klingenberg

**NOTE:** This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

*For courses in introductory statistics.*

*This package includes MyStatLab™.*

### The Art and Science of Learning from Data

**Statistics: The Art and Science of Learning from Data, Fourth Edition**, takes a conceptual approach, helping students understand what statistics is about and learning the right questions to ask when analyzing data, rather than just memorizing procedures. This book takes the ideas that have turned statistics into a central science in modern life and makes them accessible, without compromising the necessary rigor. Students will enjoy reading this book, and will stay engaged with its wide variety of real-world data in the examples and exercises.

The authors believe that it's important for students to learn and analyze both quantitative and categorical data. As a result, the text pays greater attention to the analysis of proportions than many other introductory statistics texts. Concepts are introduced first with categorical data, and then with quantitative data.

### Personalize learning with MyStatLab

MyStatLab™ is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. For this edition, new web apps with complementary exercises, a tightly integrated video program, and strong exercise coverage enhance student learning.
