Zach has a void in his life and desperately wants out of New York. Is this void dire enough to force Zach away from Dray? Both parties are harboring secrets, so turbulent times are on the horizon. Zach and Dray have been together for nearly eight years, but will this partnership make it through the next two months?

To the outside world Dwight is living the perfect life. He has a wife, three kids and a house with a white picket fence. But once you step inside the Taylor household, you'll quickly discover things are not always what they appear. Over the next two months, Dwight will make some choices that will impact him—and his family—forever.

Tony and Raidon are relocating. TJ isn't happy about his parent's decision, but this move will bring three special people into his life that ultimately shows just how small the world really is.

In the seventh book of an eleven book series, seven years have passed since we've last seen the gang of friends and the groundwork is laid for the epic conclusion to this series. And in an amazing twist, Jaxon Grant incorporates a storyline from a previous series that makes everything come full circle. The mix of new and old characters are guaranteed to leave you wanting more, but will also prove that nobody's perfect.
