Genesis Revisited: Is Modern Science Catching Up With Ancient Knowledge?

Zecharia Sitchin

Genesis Revisited: Is Modern Science Catching Up With Ancient Knowledge? Zecharia Sitchin

- Was Adam the first test-tube baby?
- Did nuclear fission destroy Sodom and Gomorrah?
- How were the ancients able to accurately describe details about our solar system that are only now being revealed by deep space probes?

The awesome answers are all here, in this important companion volume to *The Earth Chronicles* series. Having presented evidence of an additional planet as well as voluminous information about the other planets in our solar system, Zecharia Sitchin now shows how the discoveries of modern astrophysics, astronomy, and genetics exactly parallel what has *already* been revealed in ancient texts regarding the "mysteries" of alchemy and the creation of life. *Genesis Revisited* is a mind-boggling revelation sure to overturn current theories about the origins of humankind and the solar system.
