Horizons Mathematics, Grade 6: Student Workbook, Book 2 Cindi Mitchell, Lori Fowler

Horizons Math is a carefully designed curriculum that makes elementary math easy and enjoyable for both parents and students. Each book consists 80 full-color lessons and 8 review tests. Through reasoning, hands-on learning and memorization exercises, students gain a complete understanding of math concepts.

The book has sixth grade review and builds upon the four basic math operations. New concepts include word numbers through hundreds, trillions, scientific notation, and four-digit by four-digit multiplication.

Give your child a solid foundation in elementary math skills. Bright, colorful lessons in this Alpha Omega curriculum engage your child with topics such as personal finance and banking, writing equations for word problems, bisecting geometric figures, and more!

Designed with fast-paced lessons, this Christian homeschool curriculum uses a spiral learning method to help your student master concepts through the process of introduction, review, and reinforcement. This learning method allows students to quickly grasp difficult concepts in a colorful, motivating format.
