My New Order A Collection of Speeches by Adolph Hitler Volume Two Adolph Hitler

The original of this book was published in 1941. It is 1008 pages long. This is too long to be published in soft cover, so it has been divided into two volumes. This is probably the best and most complete explanation of Hitler's rapid rise to power. Unfortunately, it could not be continued because Count Raoul Jean Jacques Francois Raoul de Roussy de Sales died the following year in 1942. The first volume is Hitler's speeches from the rise to power, 1918 to 1933 to the bloodless annexations Annexation of Austria and the Dismemberment of Czechoslovakia. This second volume is from the Road to War, March to October 1939 to the Blitzkrieg in the East and the Invasion of Russia in 1941. The Chapters are: Phase V: The Road to War (a) The Danzig Crisis (b) The Partition of Poland (c) Offers of Peace Phase VI: The "Phone War – October, 1938 – April, 1940 Phase VII: Blitzkrieg in the West – April, 1940 – October, 1940 (a) Invasion of Scandanavia (b) Invasions of the Lowlands (c) The Fall of France Phase VIII: War on the British Empire – October, 1940 – June 1941 (a) The Siege of England (b) The Invasion of the Balkans (c)The Battle of the Life-Lines Phase IX: Blitzkrieg in the East June 1941 My New Order has attracted the attention of the press with the rise of Donald Trump as candidate for President of the United States because his first wife Ivana Trump revealed that Donald Trump reads a book of Hitler's collected speeches, My New Order, which he keeps in a cabinet by his bed. It can be seen that there are clear similarities between the speeches of Trump and the speeches of Hitler. Here are examples: They repeat themselves constantly, saying the same things over and over again. They never admit they have made a mistake nor do they ever take anything back. To any criticism, they respond by insults and name calling. They use a low form of language, with simple sentences even a person with the lowest level of education or with no education at all can understand. Studies have shown that Trump speaks at a 4th grade reading level. Most of the words he uses are only one syllable long. Researchers studying Trumps speaking style and searching for the reason it appeals to such a wide audience have found that most of the words Trump uses are only one syllable long. Almost all of the remaining words Trump uses are only two syllables long. Trump almost never uses a three syllable word except when he has to such as the word California.
