# ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content

*ISO TC 155/SC 3/WG 7*

## **ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content** ISO TC 155/SC 3/WG 7

The principle of the method specified is dissolution of a test portion in nitric acid, measurement of the absorption of the resonance line energy from the spectrum of antimony in the test solution at a wavelength of 217,6 nm by an atomic absorption spectrometer fitted with a graphite furnace electrothermal atomizer, calibration by the standard additions method described in ISO 11438-1. Applies to antimony contents in the range of 1,0 g/t to 5,0 g/t in ferronickel. This title may contain less than 24 pages of technical content.

### **From reader reviews:**

#### **Alicia Wescott:**

Inside other case, little men and women like to read book ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content. You can choose the best book if you'd prefer reading a book. Provided that we know about how is important a new book ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content. You can add expertise and of course you can around the world by just a book. Absolutely right, because from book you can know everything! From your country right up until foreign or abroad you can be known. About simple issue until wonderful thing you may know that. In this era, we are able to open a book as well as searching by internet device. It is called e-book. You can utilize it when you feel fed up to go to the library. Let's study.

#### **Lowell Oliver:**

The actual book ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content has a lot info on it. So when you read this book you can get a lot of gain. The book was compiled by the very famous author. The writer makes some research before write this book. This book very easy to read you can find the point easily after reading this article book.

#### **Lorenzo Davis:**

Do you have something that that suits you such as book? The guide lovers usually prefer to decide on book like comic, limited story and the biggest you are novel. Now, why not attempting ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content that give your enjoyment preference will be satisfied through reading this book. Reading addiction all over the world can be said as the means for people to know world a great deal better then how they react when it comes to the world. It can't be explained constantly that reading addiction only for the geeky particular person but for all of you who wants to possibly be success person. So , for every you who want to start studying as your good habit, it is possible to pick ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content become your starter.

#### **Cami Raley:**

What is your hobby? Have you heard that question when you got learners? We believe that that question was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person including reading or as reading become their hobby. You should know that reading is very

important along with book as to be the issue. Book is important thing to increase you knowledge, except your own teacher or lecturer. You get good news or update with regards to something by book. Many kinds of books that can you go onto be your object. One of them are these claims ISO 11438-3:1993, Ferronickel - Determination of trace-element content by electrothermal atomic absorption spectrometric method - Part 3: Determination of antimony content.
