*The CASTOFFS*

*A Robert Flynn Novel*

Robert Flynn abandoned a sterling military career when his best friend and fellow soldier, Wesley Pike, died under his command. More than a decade later, Flynn's quiet life is disturbed by the troubles of a fledgling CIA and Alexander Grant, a flashy agent with a lot to prove. As the space race between the United States and the Soviets heats up and the body count rises, the two men fight to find common ground. Grant knows Flynn believes in the cause, but all Flynn sees is the opportunity to fail someone like he failed Wes. An attack by a Soviet agent spurs Flynn to action and a reluctant association with the agency, and tilts Flynn's world on its axis with a shocking discovery: Wesley Pike may be alive and operating as a Soviet assassin.

With Grant to bankroll the operation, his superiors looking the other way, and Flynn's hard-earned peace officially forfeit, Flynn reunites his old team with the singular goal of finding Wes. But they get more than they bargained for--Wes is amnesiac and dangerous, brainwashed into becoming the perfect weapon. Flynn struggles to reach his friend, lead his team, and navigate his charged relationship with Grant--something neither of them expected and aren't sure how to parse--while coming to grips with his long-buried feelings for Wes.
