What's the difference between Self Timer and Shutter Delay? Between AFS and AFF? How can Disp.Style change your viewing experience? The menu system of the Panasonic GX80 (GX85 in the USA) is one of the best presented and most logically laid out of any digital camera. But with 33 pages containing 151 items, many with their own sub-menus, the manual for the GX80 is labyrinthine. Many photographers faced with this, one of the most sophisticated digital cameras ever produced with its seemingly endless array of options, never fully get to grips with it. That needn't be you. This book offers a blow by blow explanation of the menu items, what they do and why you might want to utilize them, in non-technical language. Its aim is not to teach you photography but how to use the GX80 as a finely tuned tool for your image making. The last chapter goes through every menu item in order and tells you how the author has his camera set up. You can simply copy these settings to your GX88 and within a few minutes be out and about taking pictures with confidence.
