Destiny of the Republic: A Tale of Madness, Medicine and the Murder of a President Candice Millard
James A. Garfield was one of the most extraordinary men ever elected president. Born into abject poverty, he rose to become a wunderkind scholar, a Civil War hero, and a renowned and admired reformist congressman. Nominated for president against his will, he engaged in a fierce battle with the corrupt political establishment. But four months after his inauguration, a deranged office seeker tracked Garfield down and shot him in the back.

But the shot didn't kill Garfield. The drama of what happened subsequently is a powerful story of a nation in turmoil. The unhinged assassin's half-delivered strike shattered the fragile national mood of a country so recently fractured by civil war, and left the wounded president as the object of a bitter behind-the-scenes struggle for power—over his administration, over the nation's future, and, hauntingly, over his medical care. A team of physicians administered shockingly archaic treatments, to disastrous effect. As his condition worsened, Garfield received help: Alexander Graham Bell, the inventor of the telephone, worked around the clock to invent a new device capable of finding the bullet.

Meticulously researched, epic in scope, and pulsating with an intimate human focus and high-velocity narrative drive, *The Destiny of the Republic* will stand alongside *The Devil in the White City* and *The Professor and the Madman* as a classic of narrative history.

Total Run Time: 10 hours.
