## **Testing and Evaluating the Optics of Schmidt Cassegrain Telescopes** Robert Piekieł

Testing and Evaluating the Optics of SCTs: A fully illustrated text describing how to accurately test the optics of any CAT with easy-to-make tools. Covers Ronchi, Foucault, and diffraction tests, plus a WHOLE lot more. There are chapters on bench-testing and how to identify problems in the individual optical components (primary and corrector, for example), and also more advanced sections for ambitious ATMs wanting to learn secondary hand-matching procedures, as done by the master opticians in the big shops. Profusely illustrated with REAL photos of scopes under tests. No computer-generated images or hand sketches.
