Despite a multitude of differing views on UFOs, everyone can feel that big changes are on the horizon. Everyone sees things through their particular lens. In the media, not only in America but worldwide, news reports of extra-terrestrial phenomena are on the increase. Whether you refer to them as unidentified flying objects or unidentified aerial phenomena, it matters not. The fact is stuff is happening worldwide at an increasing speed as if this planet is being prepared for something big. Something that could radically alter the way we live our lives and the way we view existence. Grant Cameron, who has for decades dedicated himself to researching what American presidents have known about the UFO phenomena, has reached the conclusion that presidents' denying knowledge is just a cover, and that they actually have known and do know. To what end? Despite your individual view, the information in this intriguing book will validate the fact that Americans stand on a threshold and must make a choice. The President of the United States is the most powerful person in the world. Thirteen of them have dealt with the modern UFO phenomena. Bill and Hillary Clinton have been the most open about their handling of the mystery. Bill said he was fascinated with the subject and has talked about it many times. Hillary has said she is very interested in the UFO subject saying she doesn't believe all the witnesses could be making it up. She has gone on the record as the first high-level politician to state that aliens may already be here. She has promised to disclosure as many classified UFO files as she can on the subject if she becomes president. This book provides a historical look the Clinton's UFO story. It starts with the efforts during the Clinton administration by billionaire Laurance Rockefeller to get UFO disclosure, and the story ends talking about the box that was built by Hillary's 2016 presidential campaign chairman John Podesta to try and ensure that UFO disclosure happens.
